

DOMINATOR®

THE LATEST IN GARAGE DOOR DESIGN

Sectional Insulated Series

YOU HAVE THE CHOICE

Dominator continues to be the most recognised Garage Door brand in the country, and with that comes a solid reputation based on quality products and people you can trust.

Many people choose a Dominator door for this very reason and now there is another compelling one, our Insulated Series sectional garage doors.

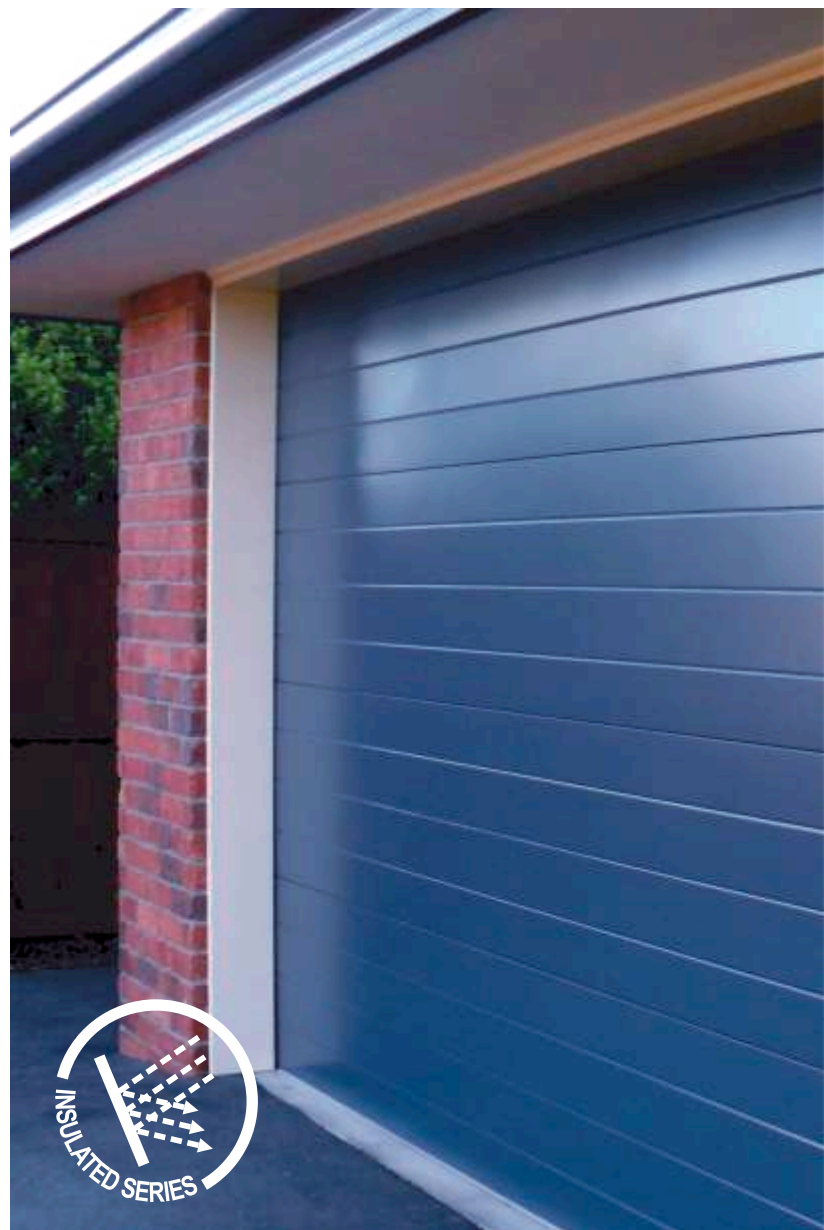

We know every home is different and every garage is used differently, we have created our Insulated Series to give you the choice should you wish to insulate your new Dominator Sectional Door. Call 0800 DOMINATOR (366 462) or visit www.dominator.co.nz to find your nearest Dominator Dealer to discuss what this exciting new range of Insulated Door styles could mean for you and your family.

GET THE USE OF YOUR GARAGE BACK

We've taken our most popular styles of sectional doors and added a sophisticated insulator used the world over. Silver-grey in colour, this unique product is EPS infused with graphite to further absorb infrared energy and reflect heat providing around 20% better insulating performance than standard EPS. A remarkable product matched to a premium brand.

At the same time your door becomes an excellent barrier to noise pollution. The acoustic qualities of our Insulated Series provide the perfect shield against noise entering and/or exiting your garage - great for busy roads or budding musicians!

All this is fancy stuff but the bottom line is our new Insulated Series garage doors will help regulate the temperature and noise in your garage so you can use it the way you want to. Yet another reason to talk to your nearest Dominator Dealer today about a door & opener package that perfectly fits your lifestyle.

We've made your favourite dependable garage door styles even better!

It's been another season of weather extremes and while we can't do much about the climate outside we can help make the space behind your new Dominator Insulated Garage Door and Opener much more comfortable.

WHETHER YOU ARE UPGRADING YOUR EXISTING DOOR OR REQUIRE A NEW ONE, YOU'VE GOT TO CONSIDER OUR INSULATED SERIES

A BRAND WITH A HISTORY YOU CAN TRUST

We've taken what we know works here in New Zealand, our time-tested roll-formed steel sectional doors and robust heavy duty hardware then added a premium insulator from a leading brand to produce our Insulated Series of sectional garage doors.

Dominator Insulated doors are built to last and most importantly, have our backing so you can be confident that one of the main access points into your home won't let you down.

MAKING A DIFFERENCE

With an R-Value of 1.25 our 40mm graphite infused Insulation has a rating over 4x that of a standard clear double glazed aluminium joinery window*, so your garage door panels will no longer be the weakest link in your insulated home.

DOMINATOR OPENERS CREATE ADDED CONVENIENCE

With super quiet variable speed operation, belt drive options and feature rich design, Dominator Garage Door Openers are world leaders.

Your insulated garage door is not only positively locked by the opener gearing, but benefits from our revolutionary TrioCode™ code hopping technology with its three frequencies to overcome remote signal interference issues that are becoming more common in our increasingly wireless world.

A MORE DISTINGUISHED LOOK

The corflute backing that houses our precision-cut insulation is a carbon-grey finish that adds a distinguished look to the internal face of the door. Low maintenance yet replaceable is a key feature of our design. All this with the same quality hardware, styles and finish on the front of the door that people around New Zealand have come to know and expect from the trusted brand of Dominator.

* WARRANTY

Peace of mind is important, that's why your Insulated Series door comes with a **5 year warranty** for the steel door panels & associated labour, **1 year warranty** for surface coating, locking mechanism & all other components & associated labour (excludes salt corrosion).

The Insulated Series is available in 18 NZ pre-painted steel colours or can be powder coated to match your taste

The same time tested hardware is used for strong dependable access to your home

(Inset:) The Milano's clean lines & smooth finish provide a contemporary look.
